

“frESCO PAY FOR PERFORMANCE”: THE NEXT GENERATION OF ENERGY PERFORMANCE CONTRACTING

frESCO project is developing new Energy Performance Contracting in the residential sector to disengage from current old-fashioned savings-based performance contracts, allowing the evolution of energy markets towards new **hybrid schemes** that do not only **reduce costs**, but also create **new revenue streams**

The frESCO packages

will combine

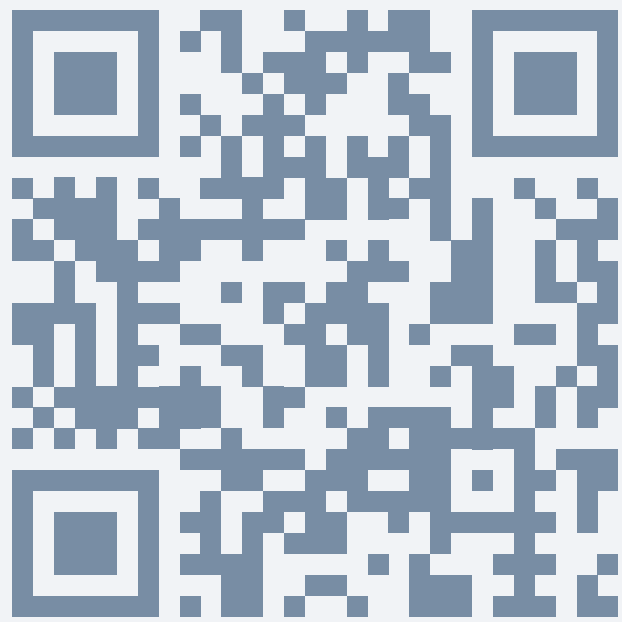

- **Building Retrofitting**
- **Smart Equipment**
- **Energy efficiency measures**
- **Flexibility services**
- **Non-energy services**

will be accompanied by

a Multi-service package toolkit for service providers with appropriately drafted business models

will be tested

in real environment in four representative pilot sites
